

Firm Profile

Keast & Hood Co. is a structural engineering firm founded in 1953. Over the course of its history, the firm has earned a reputation for committed client service and high-quality, technically-astute engineering. In addition to structural design for new buildings, the firm is a nationally-recognized leader in building diagnostics and the preservation, restoration, and rehabilitation of historic structures.

Structural Engineering expertise

- New Construction
- Renovations & Additions
- Adaptive Reuse
- Historic Preservation
- Masonry Stabilization
- Structural Intervention
